RE: REQUEST FOR INFORMATION ON INCIDENTS  
DATED AUGUST 25, 2010

Sir/Ma'am,

My name is Tony Shaw, and I am presently an inmate at a New York state Correctional Facility. The reason that I write this letter to tis organization is on the date of August 25, 2010 I was a victim of a sexual attack at one of your SRO's.

As I said the date was August 25, 2010, while I was assaulted by a Guard named "sylvester" who employed there as a security gaurd with "Allied Barton" security firm.

He wascorted me to my room, whereas he assaulted me sexually. This incident was report to Sr., Counselor Paul Dorasen, as well as the Building director,wo I know only as "seth".

A police report was made. Copies can be made upon request.

The reason that I am writing this letter is that I would like any/all information that you have on this incident. It was logged in you "log Book". An incident report was made, becuase as a direct result of tis altercation, this security Guard was fired!

There is no such thing as too little information.

At this time I sincerely thank you for your time and attention in tis matter. I look forward to a timely response.

Sincerely,

  
Tony Shaw

CLAIM: 2012P1001884  
REPEATED REQUEST FOR INFORMATION ABOUT INVESTIGATION

ATTN: Mr. David Barbaro  
Bureau of Law and Adjustment.

Mr. Barbaro,

Sir, I must say that I am a little dismayed. I have written to you and this office on Numerous occasions, and have yet to receive ONE response.

The letters that I have sent, the last one dated 2/8/13 has gone un-answered. As per letter dated 1/8/13, This matter was still under investigations. What, if any finds were found?

While I am presently not represented by counsel, I am open to negotiations in regards to this matter. As I have said time and time again, I did NOT arrive on Riker's Island with this ailment. I can provide medical records to support this claim.

Therefore, I kindly request that you provide with the findings of your "investigation", or open the chance for A settlement negotiations in this matter.

As you can see from the above address, I am presently an Inmate in a State Corrections facility, and as such, My resources are limited at best. My Statute of time is approaching, and I would like to resolve this matter.

At this time, as always I thank you for your time and attention in this matter. I again, request a timely response.

Sincerely,

  
Tony Shaw

IMPORTANT: HOW TO USE THIS INFORMATION: This is a summary and does NOT have all possible information about this product. This information does not assure that this product is safe, effective, or appropriate for you. This information is not individual medical advice and does not substitute for the advice of your health care professional. Always ask your health care professional for complete information about this product and your specific health needs.

DRUG CATEGORY: OMEPRAZOLE DELAYED-RELEASE CAPSULE - ORAL

## USES:

Omeprazole is used to treat certain stomach and esophagus problems (such as acid reflux, ulcers). It works by decreasing the amount of acid your stomach makes. It relieves symptoms such as heartburn, difficulty swallowing, and persistent cough. This medication helps heal acid damage to the stomach and esophagus, helps prevent ulcers, and may help prevent cancer of the esophagus. Omeprazole belongs to a class of drugs known as proton pump inhibitors (PPIs). If you are self-treating with this medication, over-the-counter omeprazole products are used to treat frequent heartburn (occurring 2 or more days a week). Since it may take 1 to 4 days to have full effect, these products do not relieve heartburn right away. For over-the-counter products, carefully read the package instructions to make sure the product is right for you. Check the ingredients on the label even if you have used the product before. The manufacturer may have changed the ingredients. Also, products with similar brand names may contain different ingredients meant for different purposes. Taking the wrong product could harm you.

COMMON BRAND NAME(S): Prilosec

## HOW TO USE:

Read the Medication Guide and the Patient Information Leaflet if available from your pharmacist before you start taking omeprazole and each time you get a refill. Take this medication by mouth as directed by your doctor, usually once daily, before a meal. If you are self-treating, follow all directions on the product package. Dosage and length of treatment are based on your medical condition and response to treatment. Do not increase your dose or take this drug more often than directed. If you have any questions, ask your doctor or pharmacist. Do not crush, break, or chew this medication. Swallow the capsules whole. If you have trouble swallowing the capsule, you may open the capsule if it is not sealed and carefully sprinkle its contents on a spoonful of soft, cool applesauce. Swallow all of the mixture right away without chewing it. Then drink a glass of cool water to make sure you have swallowed all of the dose. Do not prepare the mixture ahead of time for later use. Doing so may destroy the drug. If needed, antacids may be taken along with this medication. If you are also taking sucralfate, take omeprazole at least 30 minutes before sucralfate. Use this medication regularly to get the most benefit from it. To help you remember, take it at the same time each day. Continue to take this medication for the prescribed length of treatment even if you are feeling better. If you are self-treating with the over-the-counter product, do not take it for more than 14 days unless directed by your doctor. Tell your doctor if your condition persists or worsens. If you are self-treating, tell your doctor if your heartburn persists after 14 days or if you need to use this medication more
